In 2023, we are excited to host the 10th Annual Standing With Children Awards event. The event brings together leading voices in child abuse, nonprofits, community members, partners and lawmakers to celebrate and support legislators and child advocates who made important contributions to child protection in Missouri. Recipients are individuals who have advanced the child advocacy center movement in Missouri, promoted the use of multidisciplinary teams in child abuse investigations and championed legislation that creates safer communities for children by supporting Children's Division and traditional MDT partners and funding for CACs, the SAFE-CARE program and other agencies and services that are critical to advancing child protection in Missouri.

All proceeds from sponsorships and ticket sales will directly benefit Missouri KidsFirst.
