

VIRTUAL BOOSTER SESSIONS

ADDRESSING SECONDARY TRAUMA

The purpose of these booster sessions is to provide skills to professionals working with victims of abuse and their families to mitigate the impacts of secondary trauma exposure and build resiliency of individual team members, CACs and MDTs.

SPEAKER :

Cherisse Thibaut

MSW, LCSW

June 26th at 10:00am -11:30am

How to Identify and Address the 16
Warning Signs of Secondary Trauma
Responses

This 90-minute booster session will take a deep dive into understanding the 16 responses to secondary trauma exposure. Being able to identify personal warning signs quickly places advocates in a better position to ask for the help they need. Additionally, advocates will learn practical skills to address the warning signs and build resiliency while being exposed to trauma of children.

Aug 29th 10am-11:30am

Being a Secondary Trauma
Informed Team Member: Create
a Resilient Workplace Culture

In this 90-minute booster session you will learn skills to create a safe, supportive workplace culture. You will learn how to hold space for colleagues, how to practice co-regulation and how to be an affirmative team member. The skills learned in this session will contribute to the goal of creating a highly effective team that children deserve.
